Letter: Supports Piedmont-Smith

Herald-Times 7 hrs ago

To the editor:

I support Isabel Piedmont-Smith for reelection to Bloomington City Council. During Isabel's tenure on the council, she has demonstrated leadership by sharing her vision for the future of our city, and by working to build a consensus on how to meet these challenges.

Isabel recognizes that our community and our world face a threat unlike any other due to global climate change. As coauthor of the Green Building Ordinance, Isabel reduced greenhouse gas emissions while at the same time saving substantial sums of money.

Isabel cares about our well being as Bloomingtonians, and her push for greater funding for the treatment and prevention of substance abuse disorders demonstrates her common sense compassion to this urgent health crisis. Because Isabel is from Bloomington and has born witness to the very real impact substance abuse disorders have on all of us, she resolves to make this issue one of her top priorities.

Sustainability is not just about environmental concerns. It also includes a larger concept of a community that cares for its citizens, provides affordable housing, and treats all of us with the dignity that comes from our common humanity. Isabel shares this vision. Please vote for Isabel Piedmont-Smith.

Katharine "Kitty" Liell
